Cover Letter

Dear Ms Vogel,

I have been installing kitchens and fitted wardrobes in German homes for seven years, first from Poznan, now living in Frankfurt (Oder). I would like to bring this experience to your assembly and service team.

My crews are known to be reliable: we keep the promised date, protect the customer's floors and furniture, and leave a clean site. Safety on site is a strict routine for us - safe lifting, dust extraction while cutting, and correct disposal of packaging. Quality is measurable: the door gaps are even, the carcases sit true, and the handover is only done when everything is adjusted.

Most of my work is in two-person crews, so teamwork comes naturally, and I often lead the smaller jobs myself. Clear communication with customers is part of my daily work - I explain the schedule in simple German, confirm wishes, and solve problems on site when a wall is uneven or a part is damaged.

I would be glad to show you my work in a trial week.

Sincerely, Grzegorz Nowak
