Curriculum Vitae

Jana Weber Berlin, Germany - jana.weber@example.org

Education MSc Computer Science, Technische Universitaet Berlin (2021 - 2024), grade 1.2. Thesis: "Efficient Attention Mechanisms for Long-Document Classification", supervised at the research group for scalable learning systems; the code and trained checkpoints were released under an open licence. BSc Computer Science, Universitaet Heidelberg (2017 - 2021).

Research experience Student research assistant, research group for scalable learning systems (2022 - 2024). Implemented and benchmarked transformer baselines for document classification; built the group's experiment-tracking setup on GitLab and maintained the reproducibility checklist for all publications.

Publications First-author workshop paper: "Sparse Attention Windows for Long-Document Classification", Workshop on Efficient Methods for Deep Learning (2024).

Skills Python (5 years), PyTorch, JAX, NumPy, pandas, Git and GitLab CI, applied statistics and hypothesis testing, machine learning, deep learning. Experience presenting research: three group-internal and one workshop talk.

Teaching Teaching assistant for the Machine Learning course (2 semesters): weekly tutorials, supervision of 30 students, grading and exam review sessions.

Languages German (native), English (C1, working language of my MSc programme).
