JAMES OKAFOR - Senior Data Engineer
Contact: james.okafor.demo@example.org | +49 170 000 0001 | Berlin

PROFILE
Senior data engineer with 8 years of experience building batch and streaming pipelines for energy and mobility platforms. Strong ownership mindset.

EXPERIENCE
GridWorks Energy - Senior Data Engineer (2019-present)
- Designed 40+ Apache Airflow DAGs orchestrating charge-point telemetry ETL.
- Built streaming pipelines with Kafka and Spark Streaming at 2M events/hour.
- Migrated the warehouse to AWS (Redshift, S3, Lambda); cut cost 30%.
- Mentor two junior engineers; run weekly knowledge-sharing sessions.
TransData GmbH - Data Engineer (2016-2019)
- Developed Python ETL framework (pandas, SQLAlchemy) used by 4 teams.
- Wrote complex SQL window functions for fleet utilisation reporting.

EDUCATION
MSc Computer Science, Technical University of Munich (2016)

CERTIFICATIONS
AWS Certified Data Analytics - Specialty (2022)

SKILLS
Python (expert), SQL (expert), Apache Airflow, Kafka, Spark Streaming, Docker, Kubernetes, AWS, Terraform, dbt

LANGUAGES
English C1 fluent | German B2 intermediate

VALUES
I believe in reliable engineering, open communication with stakeholders and sustainable infrastructure that lasts.
